Overview

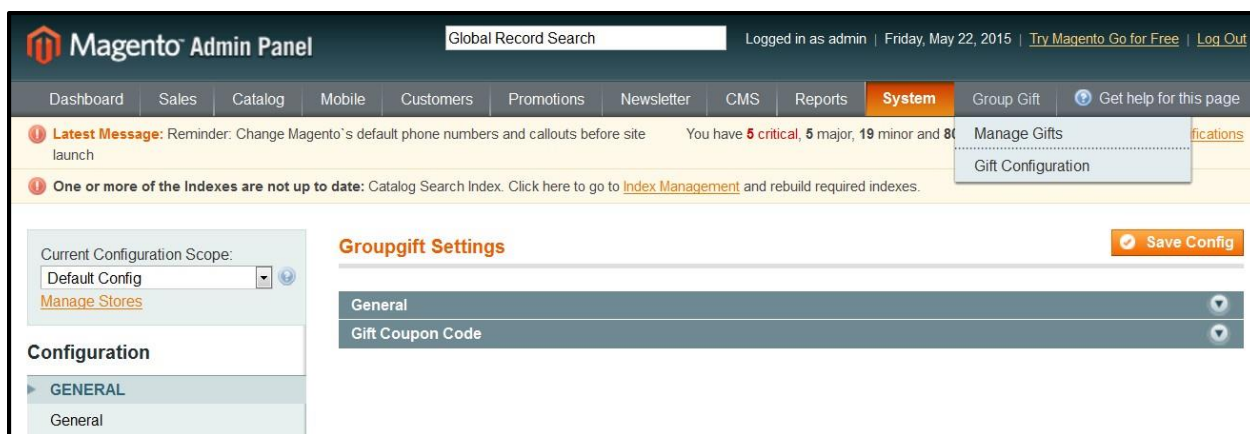

The Group Gift extension basically provides a facility to attract customers to purchase group gift for their friends. It allows purchasing a high cost gift with the help of many customers.

The Group Gift module is specifically used to provide the website admin a feature with which the users of his site are allowed to create the group gift and then invite other customers in their friend circle to contribute for this gift item. This module will help to increase the sale on our site as well as increase the new customers.

The general flow of this module is: customer chooses the product for the gift, then creates a gift registry and invites the guest for contribution. These guests can then come on your site and contribute an amount for the gift. When the gift is completed, then a coupon code will be generated of the amount of which payment has been done, and this coupon will be send to the receiver of the gift.

Manage Group Gift Configuration Setting

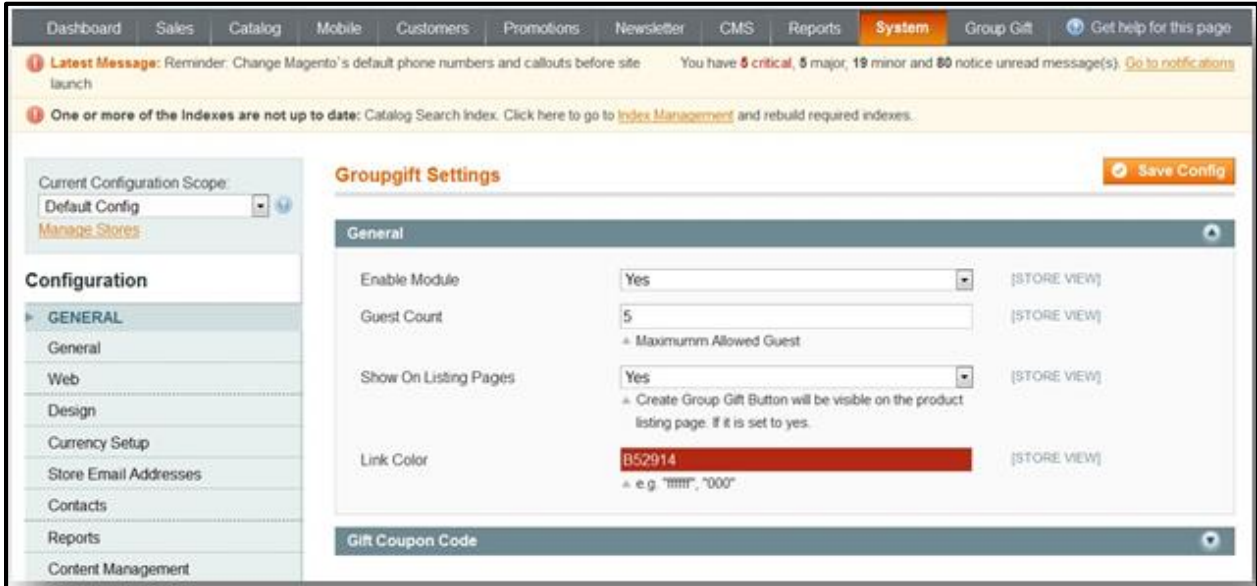

After the group gift module has been installed on your site, you will see a new tab in the header named "Group Gift". On the hover of this tab you will see two more child tabs: "Manage Gift" and "Gift Configuration". You can set the configuration of the group gift module by clicking on the tab "Gift Configuration".

The screenshot displays the Magento Admin Panel interface. At the top, the header includes the Magento logo, "Admin Panel", a search bar, and user information: "Logged in as admin | Friday, May 22, 2015 | [Try Magento Go for Free](#) | [Log Out](#)". The main navigation bar contains tabs for Dashboard, Sales, Catalog, Mobile, Customers, Promotions, Newsletter, CMS, Reports, System, Group Gift, and a help icon. The "Group Gift" tab is active, and its dropdown menu shows "Manage Gifts" and "Gift Configuration". Below the navigation bar, a message area contains two notifications: a "Latest Message" about changing default phone numbers and a warning that "One or more of the Indexes are not up to date". The main content area is titled "Groupgift Settings" and features a "Save Config" button. On the left, a sidebar shows the "Current Configuration Scope" set to "Default Config" with a "Manage Stores" link, and a "Configuration" section with a "GENERAL" link. The main settings area includes a "General" section and a "Gift Coupon Code" section, both with expandable arrows.

i. General Information

It shows all the general configuration settings to manage the group gift.

Gift Coupon Code

a. Enable Module

From this field you can enable or disable the output of group gift module.

b. Guest Count

This field is set to define how many guests can be invited for making contributions in your group gift.

c. Showing on listing page

If this field is set to "yes", then only you will see the "Create Group Gift" link on the product listing page.

d. Link color

From here you can choose the color of your group gift link that appears on the listing page.

ii. Gift Coupon Code Tab

Here the admin can provide the settings for the coupon code. These coupon codes will be created automatically when the gift is completed.

Groupgift Settings 

General		
Gift Coupon Code		
Expire	15	[STORE VIEW]
 In how many days the coupon will expire		
Apply Discount	Fixed amount discount for whole cart	[STORE VIEW]
 Discount type for the gift coupon		
Customer Group	<div>NOT LOGGED IN</div> <div>General</div> <div>Wholesale</div> <div>Retailer</div>	[STORE VIEW]

a. Expire

Here we can set the number of days after which group gift coupons will be expired.

b. Apply Discount

In this field you can define the type of discount applied for the coupon code. Right now there are 2 types available:

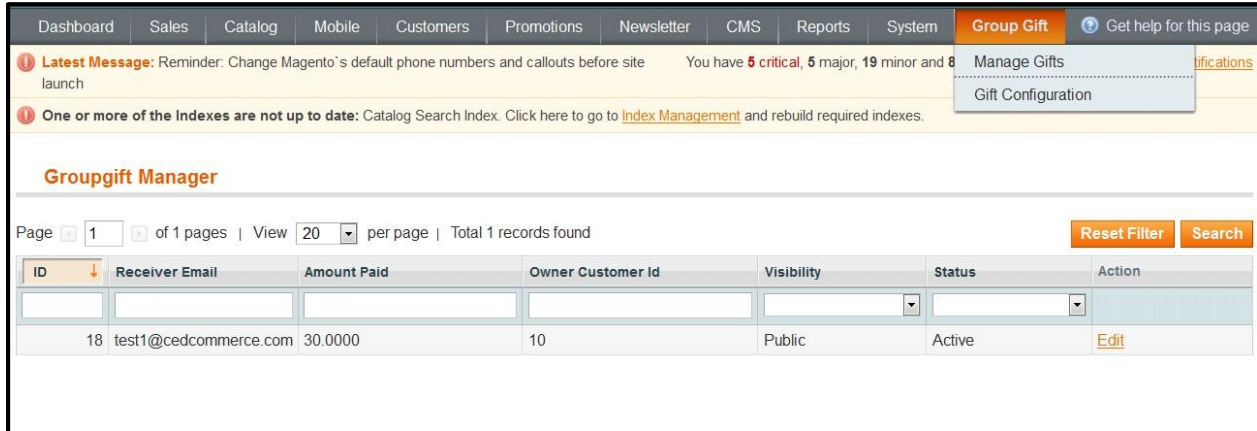

- Fixed amount discount:** In this, coupon amount will be applicable for that particular product only.
- Fixed amount discount for whole cart:** In this, the coupon amount will be applicable to the other items as well.

c. Customer Group

From here you can select the customer groups for which the coupon code will be generated.

Manage Gift

In this section, the group gift registry of the customer will be managed. Here you will see the listing of all the gift registries. You can view this section just by going to **Group Gift > Manage Gift**. From this section you can edit the individual gift registry. See the image given below

The screenshot shows the CedCommerce dashboard with the 'Group Gift' menu item highlighted. Below the navigation bar, there are two messages: a 'Latest Message' about changing Magento's default phone numbers and a warning that 'One or more of the Indexes are not up to date'. The main section is titled 'Groupgift Manager' and displays a table of gift registries. The table has columns for ID, Receiver Email, Amount Paid, Owner Customer Id, Visibility, Status, and Action. A single record is shown with ID 18, Receiver Email test1@cedcommerce.com, Amount Paid 30.0000, Owner Customer Id 10, Visibility Public, and Status Active. The 'Action' column contains an 'Edit' link. Above the table, there are pagination controls showing 'Page 1 of 1 pages' and 'View 20 per page', along with 'Reset Filter' and 'Search' buttons.

ID	Receiver Email	Amount Paid	Owner Customer Id	Visibility	Status	Action
18	test1@cedcommerce.com	30.0000	10	Public	Active	Edit

Edit the Gift Registry

You will see the Edit Form of the group gift registry by clicking on the “Edit” link. There will be 2 sections: “General” and “Guest Contribution”.

i. General Section

Here you can change the “Gift Receiver Name”, set the field for showing the contribution to the guests, set the gift price and the payment received, set the visibility and status of the gift registry and you can even delete the group gift, if required.
