Overview

Store Locator Extension, developed by CedCommerce allows the admin to create multiple stores. Its user friendly interface and high search accuracy helps the front-end users to find the desired stores.

Listing the available stores is no longer a feasible solution. Instead, admin also needs to show the map to help the users to find the nearest store. The **Store Locator** extension allows the admin to set up unlimited stores as per the requirement, showing address, opening and closing date and time of each store for the convenience of users, so that the users can select the required store.

For instance, Mr. XYZ wants to search the nearest available store. With the **Store Locator** extension, he can simply enter the location details and the range within which he wants to search for the store.

Key features are as follows:

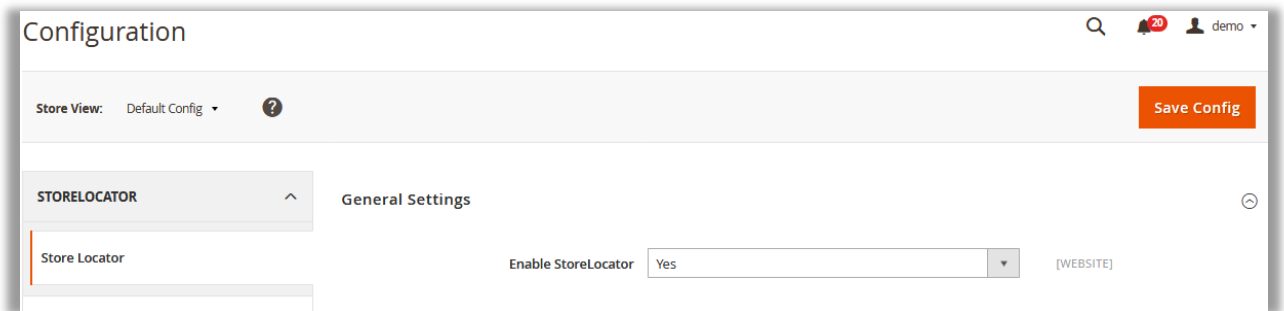

- Customer can search the nearest store location.
- Customer can search any store by country, state, or zip code.
- Customer can use Google map to search the store location.
- Admin also gets the facility to locate the created stores on the Google map.
- Front-end users can search the store range wise.

Enable Store Locator Features

Store Locator Extension feature allows the admin to create multiple stores. The admin has to enable **Store Locator Extension** configuration setting.

To enable store locator extension:

- 1) Go to the **Admin** panel.
- 2) On the left navigation bar, click the **STORES** menu, and then click **Configuration**. The page appears as shown in the following figure:

- 3) In the right panel, under **General Settings**, in the **Enable StoreLocator** list, select **Yes**.
- 4) Click the **Save Config** button.

Store Locator

This feature allows admin to do the following tasks:

- Add New Store Details
- Edit Existing Store Details
- Delete Store

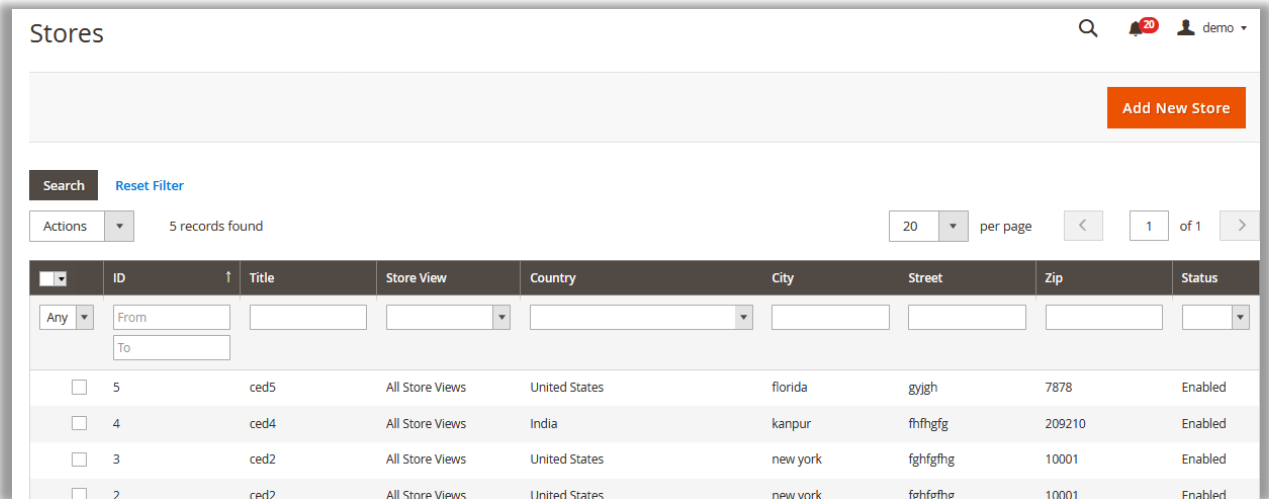

Add New Store Details

To add new store details

- 1) Go to the **Admin** panel.
- 2) On the left navigation bar, click the **STORE LOCATOR** menu, and then click **Add Locations**.

Admin Guide

The **Stores** page appears as shown in the following figure:

- 3) In the upper-right corner of the page, click the **Add New Store** button.
The **New Store** page appears as shown in the following figure:

The screenshot shows the 'New Store' page with a form for creating a new store. The form includes fields for Store Status, Store Name, Store Country, Store Region, Store City, Street Name/No., Zip/Postal Code, Store Phone No., Store View, and Description. The 'Store View' dropdown is open, showing options like 'Main Website', 'Main Website Store', 'Default Store View', 'developertool', 'developertool', 'sociallogin', and 'sociallogin'. The 'Save Store' button is visible in the top right corner.

Description

Store Image No file selected.
Allow image type: jpg, jpeg, png

4) In the right panel. Under **General Information**, enter the following details:

- **Store Status:** select Enabled to keep the store active.
- **Store Name:** enter the name of the store.
- **Store Country:** enter the country name.
- **Store Region:** enter the region of the store.
- **Store City:** enter the city of the store.
- **Street Name/No.:** enter the address.
- **Zip/Postal Code:** enter the PIN code.
- **Store Phone No:** enter the phone number of the store.
- **Store View:** select the required store view.
- **Description:** enter the description of the store.
- **Store Image:** select the store image.

5) In the left navigation panel, click the **Google Maps Settings** menu.
The page appears as shown in the following figure:

The screenshot shows the 'Google Maps Settings' page. On the left is a sidebar with 'STORE INFORMATION' and three sub-items: 'General Information Settings', 'Google Maps Settings' (which is highlighted with an orange bar), and 'Store Opening Settings'. The main content area is titled 'Google Map Information' and contains three input fields: 'Zoom' (empty), 'Latitude' (containing '26.7541632'), and 'Longitude' (containing '80.0758425'). Below these fields is a map of South Asia with a red location pin placed over New Delhi, India. The map shows surrounding countries like Pakistan, Afghanistan, and Bangladesh, as well as cities like Mumbai and New Delhi.

6) In the right panel, under **Google Map Information**, enter the following details (these details are optional):

- **Zoom**

- **Latitude**
- **Longitude**

7) In the left navigation panel, click the **Store Opening Settings** menu.
The page appears as shown in the following figure:

STORE INFORMATION

General Information Settings

Google Maps Settings

Store Opening Settings

Store Opening Information

Opening Hour (In 24hr format) * 10:56

Closing Hour (In 24hr format) * 23:00

Opening Day * Thursday

Closing Day * Sunday

8) In the right panel, under **Store Opening Information**, enter the following details:

- **Opening Hour (In 24hr format):** Select the time when the store opens.
- **Closing Hour (In 24hr format):** Select the time when the store is closed.
- **Opening Day:** Select the day when the store opens.
- **Closing Day:** Select the day when the store is closed.

9) Click the **Save Store** button.

The new store is added and listed on the **Stores** page.

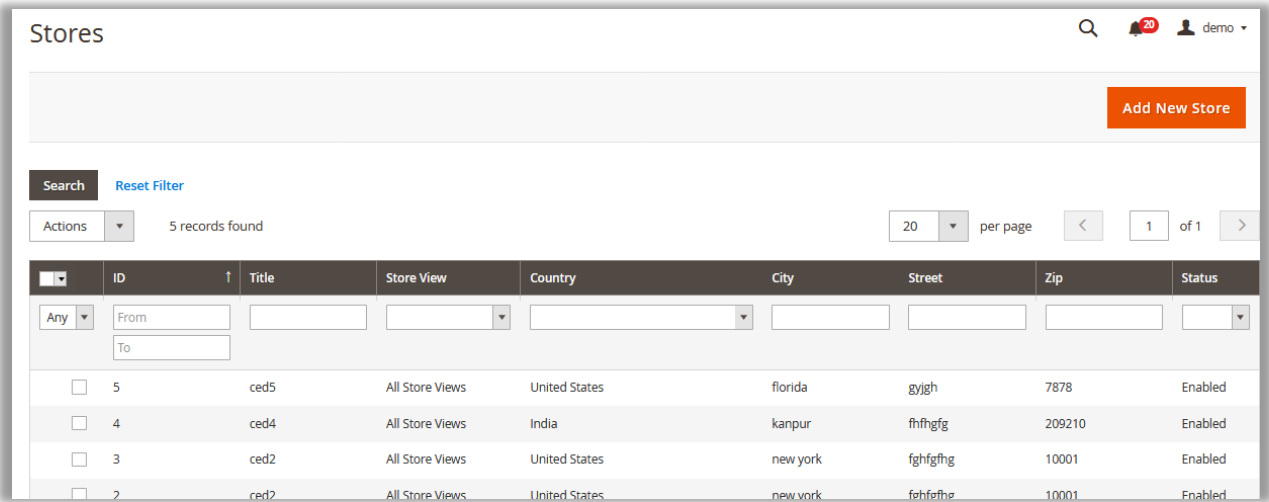

Edit the existing Store Details

To edit the store details

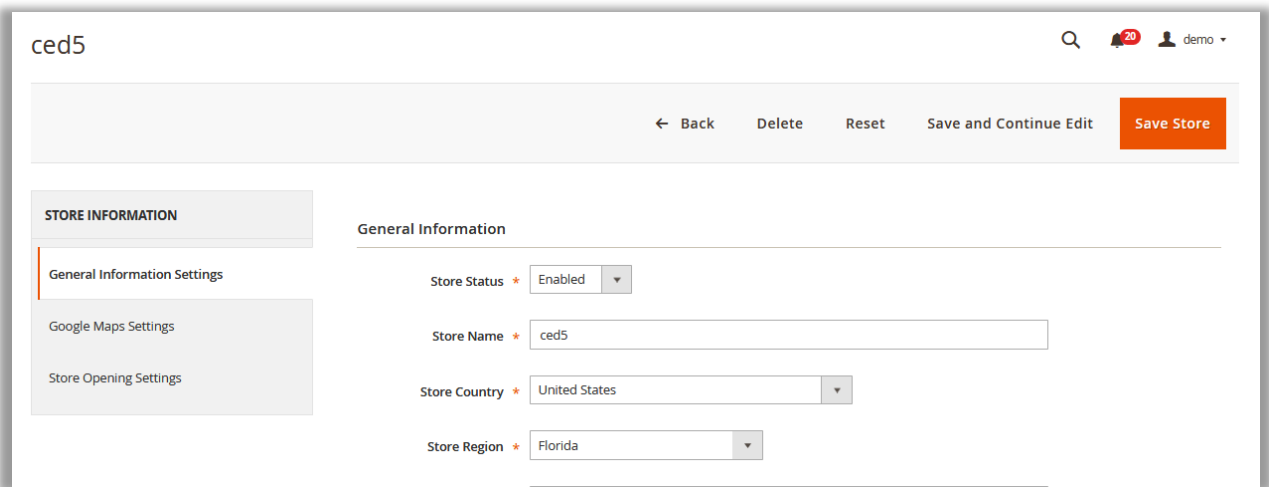

- 1) Go to the **Admin** panel.
- 2) On the left navigation bar, click the **STORE LOCATOR** menu, and then click **Add Locations**.

Admin Guide

The **Stores** page appears as shown in the following figure:

- 3) Click the row of the required store that the admin wants to edit.
The selected store page appears as shown in the following figure:

- 4) Make the changes as per the requirement.
- 5) Click the **Save Store** button.
The changes are saved.

Delete the Store Details

To delete the store details

- 1) Go to the **Admin** panel.

- 2) On the left navigation bar, click the **STORE LOCATOR** menu, and then click **Add Locations**.

The **Stores** page appears as shown in the following figure:

Stores

Search Reset Filter

Actions 5 records found 20 per page 1 of 1

ID	Title	Store View	Country	City	Street	Zip	Status
5	ced5	All Store Views	United States	florida	gyjgh	7878	Enabled

OR

Admin Guide

- d) Click the row of the required store that the admin wants to delete.
The selected store page appears as shown in the following figure:

The screenshot shows the 'ced5' store configuration page. The top navigation bar includes a search icon, a notification bell with '20', and a user profile 'demo'. Below the navigation bar, there are buttons: 'Back', 'Delete' (highlighted with a red box), 'Reset', 'Save and Continue Edit', and 'Save Store'. The left sidebar shows 'STORE INFORMATION' with 'General Information Settings' selected. The main content area is titled 'General Information' and contains the following fields:

- Store Status *
- Store Name *
- Store Country *
- Store Region *

- e) Click the **Delete** button.
A confirmation dialog box appears.

The confirmation dialog box contains the text 'Are you sure you want to do this?' and two buttons: 'Cancel' and 'OK'.

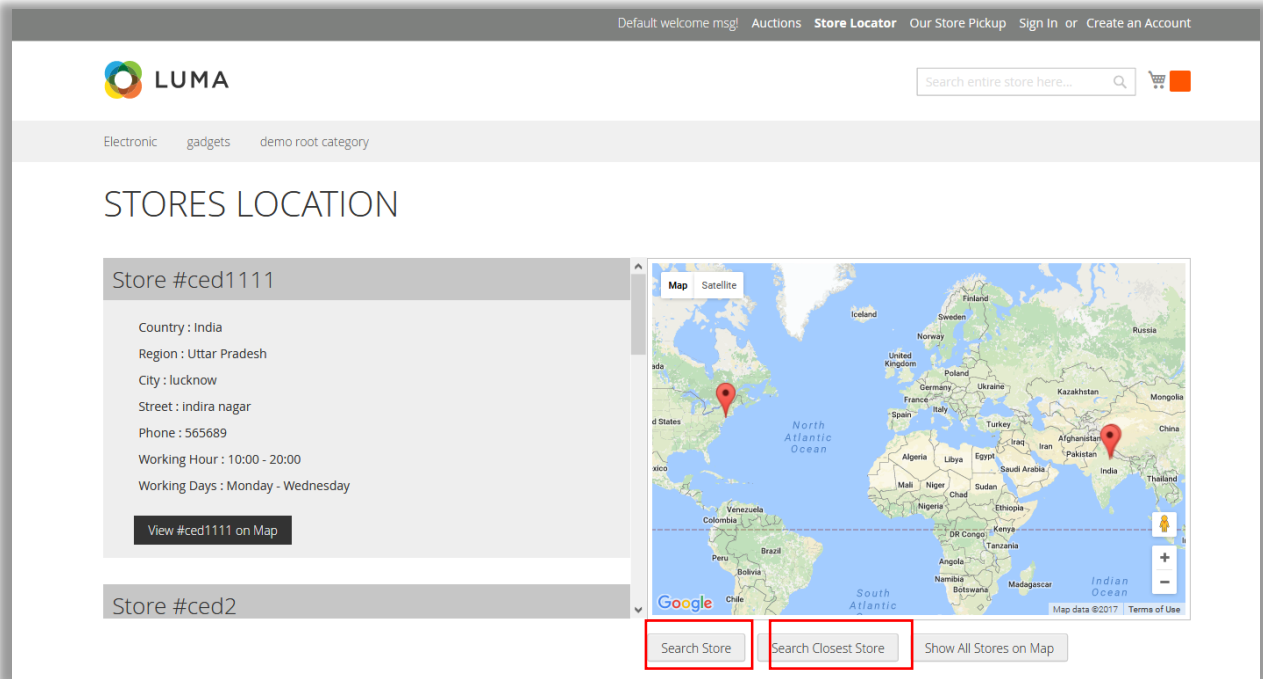

- f) Click the **OK** button.
The store is deleted.

Front-end View

Once the Admin enables the Store Locator feature, the front-end users can view the details of the available store on the front-end view.

- On the top navigation bar, click the **Store Locator** menu.

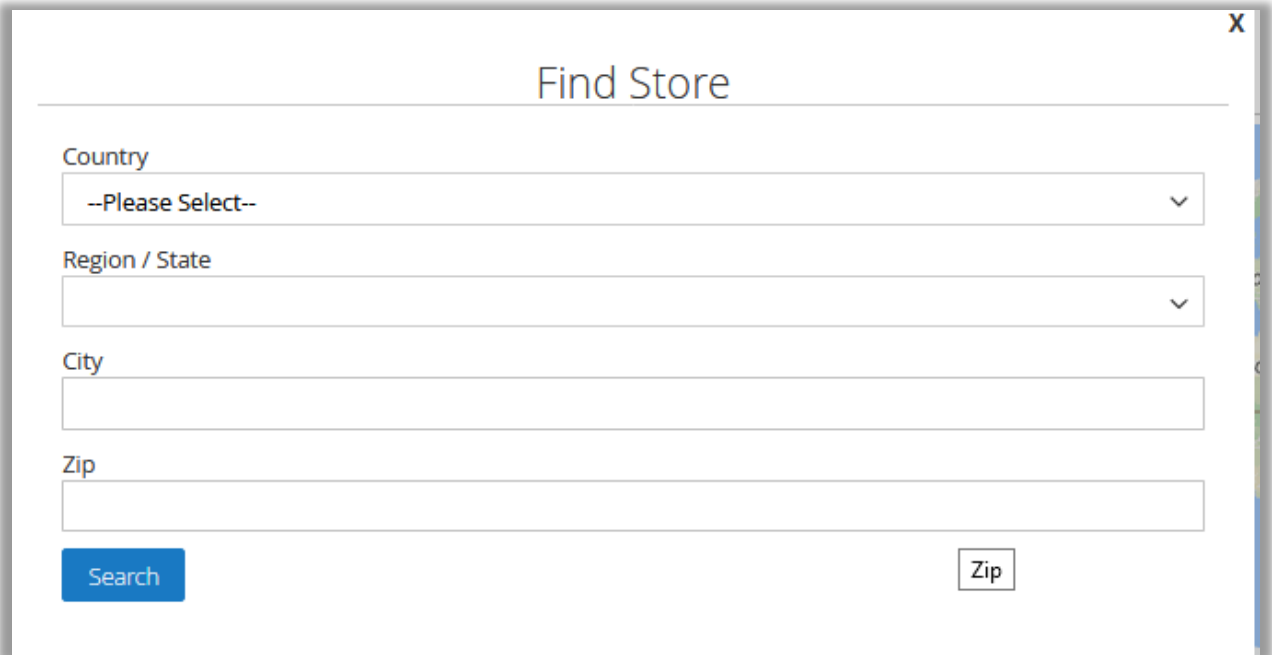

The front-end users can do the following tasks:

- Under **STORES LOCATION**, all the available stores details are listed.
- To search the store: Click to search the required store.
- To search the nearest store: Click to search the nearest store.
- Show all the stores on the map: Click to view all stores on the map.

To search the required store

- 1) Click the **Search Store** button.

The **Find Store** dialog box appears as shown in the following figure:

A screenshot of a web form titled "Find Store" with a close button (X) in the top right corner. The form contains four input fields: "Country" with a dropdown menu showing "--Please Select--", "Region / State" with a dropdown menu, "City" with a text input field, and "Zip" with a text input field. Below the "City" field is a blue "Search" button. To the right of the "Zip" field is a small box labeled "Zip".
