## Overview

CedCommerce SMSA Shipping extension for Magento 2 allows domestic shipping facilities only for Saudi Arabia. With the help of this module admin can set his own rates & allow SMSA shipping for his customers. It automatically calculates the shipping costs based on the products weight. This unique shipping method is designed to calculate the exact shipping costs based on the weight of the products added to cart. Using this shipping method, you can set price for first 15 Kg of weight and also the price of each additional Kg.

## Admin Configuration

Admin can enable SMSA shipping method by going to the **Stores > Configuration > SALES > Shipping Method** section. Here you will see the “SMSA Shipping” group and from there you can set the “Enabled” field to “yes”. Now SMSA shipping will be available and the customer will see its rates on frontend.

### i. Enable

From here, the admin can enable/disable SMSA shipping method for his products.

### ii. Price for first 15 Kg

Here the admin can enter the price for first 15 Kg of weight.

### iii. Price for additional 1 Kg

Here the admin can set the price for additional 1 kilogram of weight.

#### i. P.O. Box

Here the admin can set his/her P.O. Box number.

#### ii. Pass Key

Here admin can set his sandbox or live SMSA account pass-key.

#### iii. Sort Order

Here the admin can set the order or priority of his methods. Admin methods will be displayed according to this sort order.

## Manage Shipment Page

When the order gets placed, then the admin can ship the product and generate the invoice of that product. When the shipment is generated, tracking number automatically gets assigned to that order and a link “**Track this Shipment**” appears on order page from where the admin can track the order.
