OVERVIEW

WooCommerce hide price extension is made to enable all eCommerce functionality only for verified users providing a perfect platform for products which are accessible only for verified users. Admin set password and give it to all customers. Customers enter the password to access all eCommerce functionality including the Add to Cart and Buy Now buttons, checkout process and cart.

This extension provides various key features:-

- Hide product price and add to cart button
- Only verified user can get add to cart feature and can view price.
- You can Give summary text for product.
- You can set password to show price.
- Can set order now Button text.
- Can set submit Button Text.
- Can customize password field placeholder.
- Can customize messages on password empty and wrong password and matched password text.
- Translation Ready.
- WPML Compatible.
- Simple and Easy to use.

Installation

Automatic Installation

Automatic installation is the easiest option as WordPress handles the file transfers itself and you don't need to leave your web browser.

Steps are as follows :

1. To do an automatic install of plugin, Go to <http://cedcommerce.com/> and search the "WooCommerce Hide Price"
2. Once you've found our plugin you can view details about it such as the the point release, rating and description.
3. You can download the plugin from here and install in your site.

Manual Installation

Manual installation of plugin is another option to install plugin to your WordPress-environment. The manual installation method involves downloading our eCommerce plugin and uploading it to your webserver via your favorite FTP application.

Steps are as follows :

1. Upload the 'WooCommerce Hide Price' folder to the /wp-content/plugins/ directory.
2. Activate the plugin through the 'Plugins' menu in WordPress.

Admin Setting
